# M5200 Industrial Pressure Transducer

### **SPECIFICATIONS**

- Wide Temperature Range
- Compact
- Variety of Pressure Ports and Electrical Configurations
- Optional Stainless Steel Snubber
- CE Compliant and Weatherproof
- Gage, Sealed, Compound

The M5200 pressure transducers from the Microfused line of MEAS, with their modular design, offer maximum flexibility for different configurations. This latest series sets a new price performance standard for demanding commercial and heavy industrial applications. This series is suitable for measurement of liquid or gas pressure, even for difficult media such as contaminated water, steam, and mildly corrosive fluids.

The wetted material is made of either 17-4 PH or 316L stainless steel and the transducer's durability is excellent with no o-rings, welds or organics exposed to the pressure media. The M5200 is weatherproof and exceeds the latest heavy industrial CE requirements including surge protection. The circuit is protected from reverse wiring at input and short circuit at output.

This product is geared to the OEM customer for low to mid volumes. MEAS stands ready to provide a custom design of the M5200 where the volume and application warrants. Additional configurations not listed are either available or possible. Please inquire for further information.

### FEATURES

- Heavy Industrial CE Approval
- 10 V/m EMI Protection
- Reverse Polarity Protection on Input
- Short Circuit Protection on Output
- ±0.25% Accuracy
- ±1.0% Total Error Band
- Compact Outline
- -40°C to +125°C Operating Temperature
- Weatherproof

### **APPLICATIONS**

- Industrial Process Control and Monitoring
- Advanced HVAC Systems
- Refrigeration Systems
- Automotive Test Stands
- Off-Road Vehicles
- Pumps and Compressors
- Hydraulic/Pneumatic Systems
- Agriculture Equipment
- Energy Generation and Management

For custom configurations, consult factory.

#### Notes

Compensated Temperature: The temperature range over which the product will produce an output proportional to pressure within the specified performance limits.

Operating Temperature: The temperature range over which the product will produce an output proportional to pressure but may not remain within the specified performance limits.

Storage Temperature: The temperature range over which the product can be stored safely in occasions without pressure applied or power input and remains rated performance. Beyond this temperature range may cause permanent damage to the product. All configurations are built with supply voltage reverse and output short-circuit protections.

#### **CE Compliance**

EN 55022 Emissions Class A & B

IEC 61000-4-2 Electrostatic Discharge Immunity (8kV contact/15kV air)

IEC 61000-4-3 Radiated, Radio-Frequency Electromagnetic Field Immunity (10V/m, 80M-1GHz)

IEC 61000-4-4 Electrical Fast Transient Immunity (1kV)

IEC 61000-4-5 Surge Immunity (V+ to V-: ±2KV/42Ω; L to Case: ±1KV/12Ω; V- to V<sub>0</sub>: ±1KV/42Ω)

IEC 61000-4-6 Immunity to Conducted Disturbances Induced by Radio Frequency

Fields (150K~80MHz, 10V level for voltage output models, 3V level for current output model)

IEC 61000-4-9 Pulse Magnetic Field Immunity (100A/m peak)

For all CE compliance tests, max allowed output deviation ±1.5 %F.S.

Note: Refer to installation instructions for recommended torque.

### Notes:

1. NC pins are reserved for factory use only. **Customers should not use these connections**.

2. For cable connection, the drain wire is internally terminated to pressure port.

## **CONNECTION TYPES**

| Sumitomo                            | SUMITOMO 3-PIN HV 040                            | 6189-6907  | 8100-3067 (AWG 20~22)<br>8100-3068 (AWG 16~18)<br>QTY 3 | 7165-1075 (INS. DIA 1.1~1.6MM)<br>7176-0621 (INS. DIA 1.6~1.9MM)<br>7165-0622 (INS. DIA 1.8~2.2MM)<br>QTY 3 |  |  |  |  |  |

Note: Transmitter of gage pressure type requires vent to atmosphere on the pressure reference side. This is accomplished via cable from the transmitter (the end of the cable should be terminated to clean and dry area) or through the customer mating connector/cable assembly which has internal vent path.

Suggested vented M12 mating connector P/N MB12FWAFF04ST-4 and MB12FWAFF04ST-3 at <u>www.finecables.com</u> for 0.157"~0.236" and 0.236"~0.315" diameter cable respectively.

### WEATHERPROOF

| WEATHER-PROOF RATING |      |  |  |  |  |  |
|----------------------|------|--|--|--|--|--|
| CONNECTION IP CODE   |      |  |  |  |  |  |
| Bayonet              | IP67 |  |  |  |  |  |
| Packard              | IP66 |  |  |  |  |  |
| Cable                | IP67 |  |  |  |  |  |
| 1/2NPT CONDUIT       | IP67 |  |  |  |  |  |
| M12                  | IP67 |  |  |  |  |  |
| AMP/TE               | IP67 |  |  |  |  |  |
| FORM C               | IP65 |  |  |  |  |  |
| FORM A               | IP65 |  |  |  |  |  |
| Sumitomo             | IP67 |  |  |  |  |  |

Note: Weatherproof ratings are met when the mating connectors are installed properly and the cable termination is to dry and clean area.

### **OUTPUTS**

| CODE | OUTPUT SIGNAL | SUPPLY VOLTAGE   |
|------|---------------|------------------|
| 3    | 0.5 - 4.5V    | 5 ± 0.25V        |
| 3    | RATIOMETRIC   | PROTECTED to 30V |
| 4    | 1 - 5V        | 8 - 30V          |
| 5    | 4 - 20mA      | 9 - 30V          |
| 6    | 0 - 5V        | 8 - 30V          |
| 7    | 0 - 10V       | 12 - 30V         |
| 8    | 1 - 6V        | 8 - 30V          |
| 9    | 0.5 - 4.5V    | 5 - 30V          |

Note: For Sumitomo and 1/2" NPT Conduit, contact factory for additional information. Compound pressure range is -14.7 to xxxpsig or -1 to xxxbarg. (e.g. 200PC: -14.7 to 200psig, 020BC: -1 to 20barg) Refer to online installation instruction for recommended torque.

Installation instructions will no longer be shipped with unit delivery. This document is available on our website in English and Chinese.
